

Powersoft at Polish Woodstock Live Event

Powersoft amplifiers provide sound to one of the biggest Live Show in Europe, with an attendance of more than 500.000 people.

Gigant Sound, founded in 1993, is one of the biggest Polish Service Companies operating in Rock, Pop and Classic Lives as well as in TV Shows in Poland, East Europe and USA.

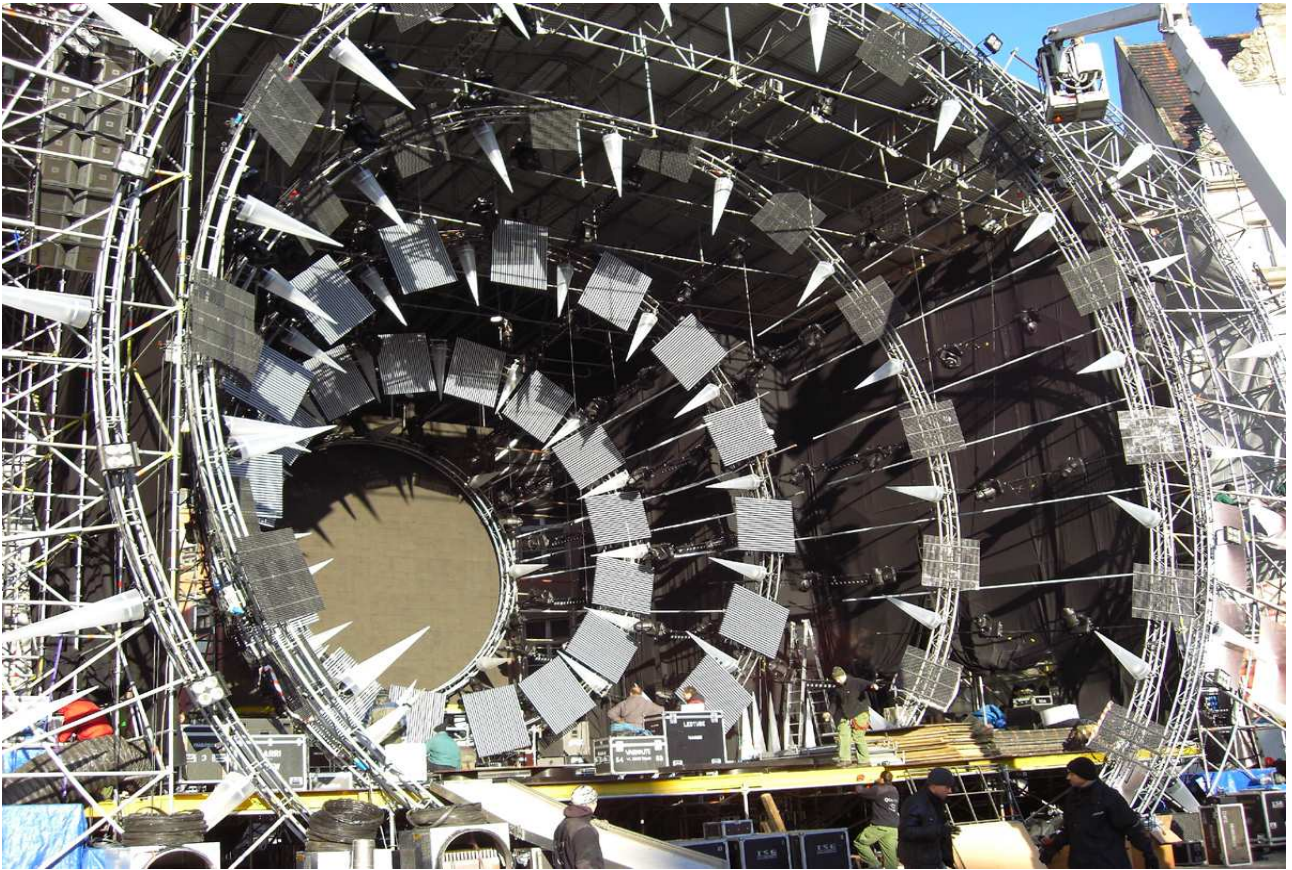

With a staff of more than 30 people, it offers best technical support to a large part of polish Live Acts and to Int'l artists as **Elton John, Ricky Martin, Prodigy** and many others.

The “**Polish Woodstock**” was the biggest Live Event in 2007 taken in Poland and most probably all over Europe.

With an audience of 500.000 people, the Show included performances of several Int'l artists.

Gigant Sound was one of the Sound Service involved in equipping the various band stands with a large use of **Powersoft K10DSP** units, successfully supporting all the various applications and mainly subwoofers.

After this great success, at the end of 2007, Gigant Sound also purchased from Powersoft **K20DSP's** to further increase power of its set-up usually destined to large and crowded environments, so reaching a total amount of about **50 KDSP units**.
